ABOUT ME

My name is Timurbek Saburov, and I am a Full-Stack Developer with strong leadership and problem-solving skills. I have experience integrating APIs and services such as Google Maps, Socket.IO, Luna, and eGov into modern applications. I focus on building high-quality, scalable, and beautiful solutions within short timelines. I am passionate about continuous learning and always ready to explore and master new technologies to improve both myself and the projects I work on.

SKILLS

I have strong Full-Stack Development skills with hands-on experience in backend, frontend and DevOps. My expertise includes building scalable applications, integrating APIs, and delivering reliable, high-quality solutions. I continuously learn new technologies to stay up to date and improve efficiency.

Backend

- C# ASP.NET Core – Building RESTful APIs, authentication, scalable backend systems
- Node.js & Express – Fast server-side applications and API development
- Databases – PostgreSQL, MongoDB, SQL Server (design, optimization, indexing)
- Authentication & Security – JWT, OAuth2, role-based access control

Frontend

- React.js / Next.js – Modern, responsive, and SEO-friendly web applications
- HTML, CSS, JavaScript (ES6+), TailwindCSS – Strong fundamentals for clean UI/UX
- UI Frameworks & Libraries – Ant Design (Antd), Material UI (MUI), NextUI

DevOps & Tools

- Docker & Docker Compose – Containerization and environment setup
 - Git & GitHub/GitLab – Version control and collaborative development
 - CI/CD – Automating build, test, and deployment pipelines
-

EDUCATION

Tashkent State Transport University | 2021-2025

Bachelor's Degree in Transport Engineering

During my studies, I have gained knowledge of transport systems, logistics, and modern engineering technologies. I have also developed analytical thinking, problem-solving, teamwork, and leadership skills. My education has given me both theoretical knowledge and practical experience, which I apply in real-world projects.

WORK EXPERIENCE

TelecomSoft | 03/2025 - Present

FullStack Developer

- Worked on multiple complex systems and contributed to large-scale projects used by 2000+ people.
 - Developed backend services using C# ASP.NET Core to build scalable and secure applications.
 - Built responsive and modern frontends with React.js and Next.js.
 - Integrated APIs and third-party services to improve functionality and user experience.
 - Collaborated with team members to ensure fast delivery and high-quality project outcomes.
